

Kia Ora

**NAW
TEACHER**

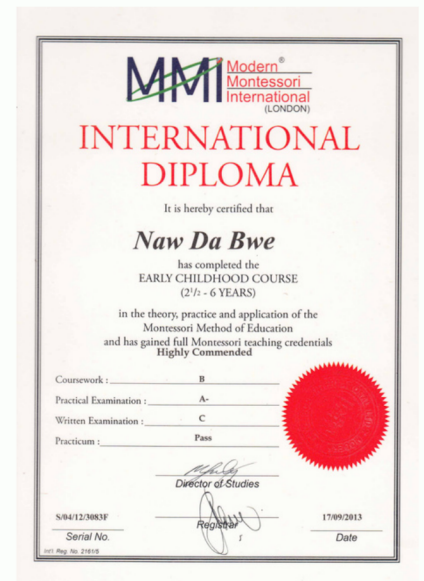

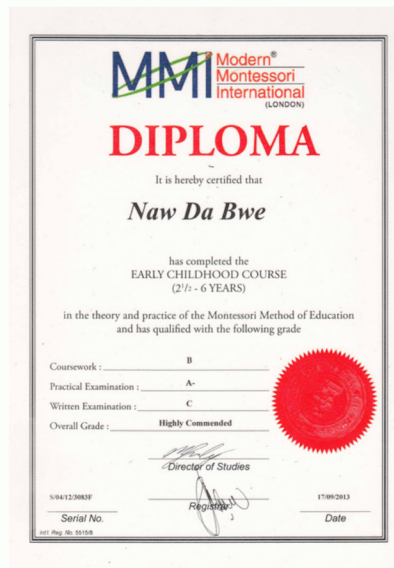

I am Naw Da Bwe.

I am from Myanmar. I came to New Zealand five years ago. I am married and have two children, a boy and a girl. I enjoy living in this beautiful country with my family.

I have worked as an administrator before.

But I wanted to explore and have new experiences so I changed my job to be a Montessori teacher as I also love to work with the children. I have completed International Montessori Diploma in Singapore in 2013.

Working with the children is so much fun and I have learned so many things from the children. I love to observe and celebrate learning and development milestone and love to guide children's learning and development.

We put our heart into your child's education
